RFP for Technology Services - Informatica to Oracle Data Integrator Migration and OBIA Upgrade

Addendum #1

Below are the questions we have received and HDC's response to each question.

	Question	Answer
1	What is the name of the client?	NYCHDC
2	What is the high level business objective?	Migrate Informatica 9.6 within OCI to ODI 12.2.1.3.2 within OCI. Upgrade of OBIA 7.9.6.4 within OCI to OBIA 11.1.1.10.3 within OCI. Upgrade OAS 5.9 within OCI to OAC Pass Service. Provision any new resources within the existing OCI tenancy. NOTE: We have no OBIA executables installed and operates in a decoupled manner, leveraging only the Informatica Mappings and Workflows stored in the repository for ETL processes.
3	Platform:	This information is being provided separately to keep it confidential
4	OS:	This information is being provided separately to keep it confidential
5	Database:	This information is being provided separately to keep it confidential
6	ETL Tool:	This information is being provided separately to keep it confidential
7	Source Types:	This information is being provided separately to keep it confidential
8	Target:	This information is being provided separately to keep it confidential
9	Orchestration Tool:	This information is being provided separately to keep it confidential
10	Reporting Tools:	This information is being provided separately to keep it confidential
		This information is being provided separately to keep it confidential
		This information is being provided separately to keep it confidential
		This information is being provided separately to keep it confidential
11	Number of environments	This information is being provided separately to keep it confidential
12	Do you expect an additional environment to be built as part of the project?	This information is being provided separately to keep it confidential
13	Are the non-PROD environments configured similarly to that of PROD in terms of configurations, storage, load balancers, firewalls, etc.?	This information is being provided separately to keep it confidential
14	# of Clustered Environments	This information is being provided separately to keep it confidential
15	# of Nodes	This information is being provided separately to keep it confidential
16	Load Balancer	This information is being provided separately to keep it confidential
17	Is SSO configured?	This information is being provided separately to keep it confidential

18	Is SSL configured?	This information is being provided separately to keep it confidential
19	Is LDAP configured / Identity provider?	This information is being provided separately to keep it confidential
20	What is the size (in GB) of the Production Database?	This information is being provided separately to keep it confidential
21	Total Number of BI Users	~220
22	Total Number of BI Concurrent Users	~30
23	What are the sources for the existing reports?	This information is being provided separately to keep it confidential
24	Number of Analytics / Reports?	650
25	Number of Dashboards?	36
26	Number of Subjectareas?	30
27	Do you currently utilize BIPublisher within OAS? If so, how many total reports?	Yes, 7 BIPublisher Reports
28	Are these refreshed through a batch process or real time reports?	We have reports data sourced from Warehouse tables as well as from transactional systems (for real time data).
29	What are the report delivery mechanisms existing right now?	Dashboards and Email delivery from Agent.
30	How is your data modeled?	Star / Snowflake
31	How many aggregations are there?	We don't have a tool that will give us a report on columns based on aggregations. Each report could have multiple such columns.
32	Number of Customized Informatica Mappings	111
33	Who initially deployed your OCI tenancy and the current OBIA, OAS configuration?	OCI Tenancy was deployed by Oracle Professional Services. Initial OBIA and OBIEE configuration was installed and configured by a third party vendor many years ago, since then it been upgraded multiple times by HDC staff.
34	Is there a professional services firm currently supporting the effort?	No
35	Do you have any existing technical documentations? If present, are these documentation kept up to date?	Not up to date, will have a info session to go over the architechture
36	Predictive analytics/Machine learning/Spatial data	No
37	Integration requirements	None currently
38	Do you use the RDP or the Semantic modeler?	We currently do not use Oracle Analytics Semantic modeler tool. We use the OBIEE RPD files.
39	Will the proposed vendor be given access to the identity provider for integration with the presentation layer?	Yes
40	Will the vendor have access to the current Datawarehouse (or a copy) for DEV with data to connect the new installation of OAC, or will it be a fresh DB with no data and just the data model?	We plan to give access to the current Data Warehouse which includes the data and data model. We will have to discuss an approach to redact or limit acccess to a handful of schemas that have sensitive data.
41	What is the expected duration of the Post-production support?	1 month
42	Can you provide the evaluation criteria for this RFP?	Key factors in the evaluation would be cost, experience, technical approach.
43	Can you describe your onboarding requirements?	We would need Doing Business data form and W9 completed.

44	Do you have a preference for vendors who are NY City based for this RFP?	NYC and New York State Vendors will be given an additional consideration, but not a preference per se.
45	Can the work be performed outside of NY state? Is offshore resources allowed (with no access to production data) for this RFP?	Ok to have work performed outside of NY State within US. However, no offshore resources are allowed
46	If working remotely is allowed, how will remote access be allowed? Through VPN?	VPN Or Azure Virtual Desktop
47	Is there a requirement for Government Furnished Equipment (i.e., laptops) to access the environment or will we be able to utilize our own equipment?	Can use own equipment
48	Is there a requirement for a MWBE in this solicitation? Will points be lost in the RFP evaluation if we do not propose an MWBE?	A NYC certified MWBE will be given a preference
49	RFP states the MWBE partner needs to be certified by the New York City Department of Small Business Services ("SBS") as women or minority-owned. our partner has successfully met WBENC's standards as a Women's Business Enterprise (WBE), would HDC consider us as a MWBE vendor for this RFP submission?	The preference is given to NYC Certified MWBE's, we will take into consideration other certifications but an absolute preference will not be given.
50	Can NY HDC elaborate on the proposal requirement listed as Terms and Conditions. What format should vendors respond to this section?	HDC expects vendors to submit , as part of their response, their form of contract or terms and conditions that they will require HDC to execute if chosen as a vendor. HDC will add its own conditions in the form of a contract Rider, but will expect the vendor to provide the basis for the contractual documentation. HDC will review vendor's form of contract/ terms and conditions and give comments prior to selection. If vendor is unable to agree to HDC's contract requirements at that time, the vendor will not be chosen. There is not a required form.
